Doctors of Osteopathic Medicine (DOs), are fully-licensed physicians and surgeons who practice in all specialties of medicine. The DO degree emphasizes a unique combination of holistic thinking, a recognition of the body’s own ability to heal, and the important role of a healthy musculoskeletal system in promoting and maintaining overall health for patients.

Consider a Career as an Osteopathic Physician if:
- You are attracted to the idea of being a healer of the mind, body, and spirit
- You believe in the importance of putting principles into action
- You believe that medical care should be based upon a philosophy
- You want to build a legacy, not just a career, by providing high-quality health care in your community and beyond
